

# SHASHI KANT GUPTA

Final Year Undergraduate  
Dept. of Electrical Engineering  
Indian Institute of Technology Kanpur

Mob: +917979088653  
Email: [shashikg@iitk.ac.in](mailto:shashikg@iitk.ac.in)  
Web: <https://shashikg.github.io>  
GitHub: <https://github.com/shashikg>

EDUCATION	<b>Indian Institute of Technology, Kanpur, India</b> <i>Major: Electrical Engineering</i> <i>Minor: Cognitive Science</i> <b>GPA: 8.9/10.0 (Seven Semesters)</b> <b>Munam Public School, Hazaribagh, India</b> <i>Intermediate</i> <b>Percentage: 91.2%</b> <b>DAV Public School, Hazaribagh, India</b> <i>Matriculation</i> <b>GPA: 10.0/10.0</b>	<i>Aug. '16 – Jul. '20 (Expected)</i> <i>April 2016</i> <i>April 2014</i>
INTERESTS	AGI • Cognitive Science • Computer Vision • Deep Learning • Reinforcement Learning • Robotics	
HONORS & ACHIEVEMENTS	<ul style="list-style-type: none"><li>Founded <b>Brain and Cognitive Society</b> at IIT Kanpur (An interdisciplinary student society which aims to study brain science and reverse engineer human intelligence to create more general and intelligent Artificial Intelligence) [<a href="#">BCS@IITK Homepage</a>]</li><li>Fellowship awardee for the prestigious <b>Khorana Program for Scholars 2019, IUSSTF</b> (only 47 students were selected all over India to conduct research in the United States).</li><li>Selected for a Summer Internship at <b>SUTD Singapore</b> in the second year (2018)</li><li>Received <b>Academic Excellence Award</b> twice for outstanding academic performance (awarded to top 7% of students in the institute) for the year 2016 and 2016-17</li><li>Won <b>3rd prize</b> in Techkriti Innovation Challenge, conducted by Techkriti IIT Kanpur (2017).</li><li><b>99.89 percentile</b> in Joint Entrance Examination (<b>IIT-JEE 2016</b>) among 1.5 million students.</li><li>Secured <b>All India Rank 842</b> in <b>KVPY 2015</b>, a fellowship exam conducted by IISc Bangalore and funded by Department of Science and Technology, Govt. of India</li></ul>	
RESEARCH EXPERIENCE	<b>Implementing Eccentricity Dependent Sampling into Deep Convolutional Neural Network</b> <i>Dr Gabriel Kreiman, Harvard Medical School</i> <ul style="list-style-type: none"><li>Implemented eccentricity dependent sampling (i.e., high acuity in the fovea, with decreasing acuity towards the visual periphery) into deep CNN models.</li><li>The complete model was developed in <b>python</b> using <b>TensorFlow</b> module.</li><li>Studying the effect of this model on different visual task and comparing it with human data.</li></ul> <b>Introducing Spike-Timing-Dependent Plasticity in Multi-Layer Perceptron</b> <i>Guidance: Prof Nisheeth Srivastava, IIT Kanpur</i> <ul style="list-style-type: none"><li>Derived a local learning rule based on <b>spike-timing-dependent plasticity</b> (aka STDP, assumed to be found in Biological Neurons) which uses the information about only neighbouring neurons to get weight updates in an ANN network.</li><li>An empirical evaluation was done using <b>IRIS</b> and <b>MNIST</b> dataset on One Vs All binary classification test.</li></ul> <b>Optical Flow for Localisation of UAVs in Deep Tunnel</b> <i>Summer Internship, Dr Hock Beng Lim, Centre for Smart System, SUTD Singapore</i> <ul style="list-style-type: none"><li>Worked on the <b>Optical Flow</b> algorithm based on <b>SAD block matching</b> to determine UAV position in deep tunnels i.e. GPS denied environment (coded in python, for actual prototype <b>PX4FLOW</b> was used)</li><li>Developed an algorithm to correct the errors in inconsistent flow calculation</li><li>Worked on implementing <b>Extended Kalman Filter</b> to use acceleration data to improve the accuracy</li><li>Demo Presentation at IEEE Consumer Communications &amp; Networking Conference, Las Vegas, USA</li></ul> <b>Humanoid IITK</b> <i>Team Member, Dean of Research and Development Project, IIT Kanpur</i> <ul style="list-style-type: none"><li>Helped the team in designing and developing the <b>Institute's first Humanoid Robot (AUTOMI)</b></li><li>Worked on developing the <b>bipedal walking algorithm</b>, designed a MATLAB simulation for the same</li><li>Worked on <b>Object Tracking</b> using various computer vision algorithms in <b>OpenCV</b></li><li>Team participated at <b>Fira Huro Cup 2019</b>, an international athletic event for humanoid robots.</li><li>Served as <b>Tech Head</b> for the team from <i>May. '18 – Nov '18</i></li></ul>	<i>May. '19 – Ongoing</i> <i>Dec. '18 – Apr '19</i> <i>Jun. '18 – Jul. '18</i> <i>Dec. '16 – Apr '19</i>

## KEY PROJECTS

### How Close are Artificial Neural Networks to the Brain?

Sep. '18 – Nov. '18

CS771A - Machine Learning, Prof Piyush Rai, IIT Kanpur

[ Pres ] [ Report ]

- Studied different types of **ANN** models to compare their structure and performance to realise their biological resemblance to the processing in the human brain
- Trained several neural network models on **MNIST** dataset to play with modelling of **CNN** and **RNN**.
- Tried explaining how a rate-based neuron in conventional NN can be realised as spiking neuron in **SNN**
- Studied variational EM method as explained by (Yoshua Bengio et al., 2015) on the biological plausibility of deep learning.

### Real Time Human Facial Emotion Recognition

Nov. '18 – Dec' 18

Self Project

[ Video ] [ Code ]

- Extracts human faces (using OpenCV haar-cascade/ dnn based classifier) from a camera stream and classifies them into 7 different moods i.e. Angry, Disgust, Fear, Happy, Sad, Surprise and Neutral
- CNN classifier (with ensemble) was designed, which was trained on the **ICML 2013** dataset of Facial Expression Recognition Challenge on Kaggle to achieve an accuracy of ~**65.34%** on the private test data

### Cooperative Localization Using Posterior Linearization Belief Propagation

Sep. '18 – Nov '18

EE602A – Statistical Signal Processing, Prof R. M. Hegde, IIT Kanpur

[ Code ] [ Report ]

- Implementation of a research paper, which presents the **PLBP** algorithm for cooperative localization
- Learned about and implemented **Statistical Linear Regression** using **unscented transform** on a chosen sets of **sigma points** to linearize the proposed non-linear model.
- Implemented the **Belief Propagation** algorithm to infer the marginals for different sensor nodes.

### Achieving CRLB in Sensor Network Estimation

Sep. '18 – Nov '18

EE602A – Statistical Signal Processing, Prof R. M. Hegde, IIT Kanpur

[ Code ]

- Implementation of a research paper, which proposes a general framework to achieve CRLB bounds
- Successfully implemented the proposed method in **MATLAB** to produce the results

### PixhawkArduinoMAVLink

Jun. '18

Self-Project

[ Code ]

- Developed an Open Source Arduino library to communicate between Pixhawk and Arduino
- Used **MAVLink** messaging protocol to create the communication

### SL-COM (Sign Language Communication)

Mar. '17

Robotics Club, IIT Kanpur

- Patterns were generated using different **hand gestures** to produce different letters
- Produced letters were sent to a Chat-App, where a text2speech engine was used to produce voices
- Demonstrated the prototype in **Techkriti Innovation Challenge** and was awarded with the **3rd prize**

## RELEVANT COURSES

### Machine Learning and Computer Vision

- Introduction to Machine Learning
- CNN for Visual Recognition (Stanford AI) [#]
- Reinforcement Learning Specialisation (Coursera – University of Alberta) [o] [c]
- Computer Vision: Foundations and Applications (Stanford AI) [#]
- Deep Learning Specialisation (Coursera – deeplearning.ai) [o] [c]

### Signal Processing

- Statistical Signal Processing
- Image Processing
- Signals, Systems and Networks
- Digital Signal Processing [o]

### Cognitive Science

- Foundation of Cognitive Science
- Psychology of Language
- Psychology of Adjustment
- Computational Cognitive Science
- Neurobiology
- Logic and Cognitive Science [o]

### Mathematics and Algorithms

- Data Structures & Algorithms
- Fundamentals of Computing [\*]
- Basic Statistics, Data Analysis & Inference [o]
- Probability and Statistics
- Linear Algebra and ODE

\* - Exceptional Performance

c - [Link](#) to online course certificates

# - Online (Audit)

o - Ongoing

<b>TECHNICAL SKILLS</b>	<b>Languages:</b> C • Python • MATLAB <b>Software and Tools:</b> TensorFlow • Keras • OpenCV • NumPy • ROS (Robot OS) • PsyToolkit • Git • Arduino • HTML/CSS • Jekyll
